

Beginning the week of September 17<sup>th</sup> on Tharp Drive, trees with a significant canopy will be trimmed to allow for the construction equipment on the roadway. In the following weeks, tree trimming will also occur on Ascot Drive and Crossbrook Drive. Trees will not be pruned or shaped; they will be trimmed per the image below at no cost to the contractor. Residents who are opposed to a contractor performing tree trimming may choose to do it themselves. Residents may trim, prune, and shape their trees in front of their properties without permit, but must coordinate with the Project Construction Manager immediately by contacting Greg Horne, Swinerton at (415) 710-3998 or [ghorne@swinerton.com](mailto:ghorne@swinerton.com). If a resident wishes to have a tree removed, it may require a permit with the Town of Moraga Planning department with a fee of \$250 per tree, please contact [planning@moraga.ca.us](mailto:planning@moraga.ca.us) or (925) 888-7040 for more information.
